  Secondary School*

- SSLC TamilNadu - ***78.4%***
  *AVP Trust National Matriculation Higher
  Secondary School*

About

I am an Aspiring Software Engineer. I am familiar with Web Development (React, Node, MySQL), Python, Data Structures and Algorithms. I am very Eager to learn new technologies and work on producing revolutionary softwares. I am also familiar with the Linux Environment.

Projects

- **Inventory Management -**
  (*React Js, Express Js, MySQL* **)**

  I built an Inventory Management System which used to show the dashboard(Stock Details) and to add the new stocks.

- **Attendance Portal**
  (*React Js, Express Js , MySQL***)**

  I built an Attendance Portal which is used to affix attendance for students with dashboard and mentor monitoring facility.

- **Travel Dot**
  (*React Js, Express Js, MongoDB***)**

  I built a Travel Booking Website which used to explore tourist places and also book travel Packages.

- **E-Learning**
  (*React Js, Express Js, MySQL* **)**

  I built an E-Learning Platform for students which is used to learn the topics both by videos and documentation.
